HAVE A SPA DAY YOUR HOME (DIY STYLE) OR VISIT A LOCAL SPA/SALON

If you really want to relax, treat yourself to a spa day, either at a salon or in the comfort of your own home.

If you chose a DIY style spa day, we recommend soaking your feet in warm water, lying down with a warm towel over your eyes, listening to calming music or meditations (check out the [Calm](#) app or free radio stations on various streaming apps) to create a tranquil. When you're done chilling out, lather yourself in lotion your favorite smelling lotion and give yourself (or ask someone to help give you) a manicure or pedicure. End your day with a warm bath or shower, and you're guaranteed to be feeling luxurious!

TRAVEL VIRTUALLY YOUR HOME VIA GOOGLE TRAVEL OR YOUTUBE LIVE CONTENT CREATORS

For some individuals with disabilities, travel at this time is simply not feasible due to transportation issues and COVID spikes. Below are some tips on how to create a vacation-like feel in your own home or town!

- Did you know you can still see the sights at different travel destinations with [Google Maps](#)? By using street view, you'll be transported to a first-person view of the city. You can explore different areas, "walk" down the street, and in some cases – go inside buildings. Some must see places on Google Maps include Venice, The Metropolitan Museum art, the White House, and the Great Barrier Reef!
- There are also many live content creators on YouTube, including the [Urbanist](#), who takes you along with them as they walk the streets of cities around the world.
